Structure

Size

Parameter

Name: Smart RF Gateway

Power supply: Android USB power supply

Communication method: WiFi (802.11 b/g/n 2.4G)&RF433

Control method: RF/mobile phone/AI voice/manual control

Working frequency: 433.92MHz

Transmission rate: 0.5 to 300 kbps

Modulation method: FSK, GFSK, OOK

Output power: +10dBm

Antenna: External IPEX antenna

Working temperature: -40°C to 85°C

Colour: Black

Product material: ABS

Distance: Open area \leq 200m

Size: 70*70*26mm

APP: Smart Life

Network configuration method: Long press the pairing button for 6 seconds, the blue indicator light will flash quickly, open the APP and enter the 2.4G WiFi password, and wait for the network configuration to succeed.
